Re: Letter of Endorsement – North Melbourne Football Club

The North Melbourne Football Club has been extremely impressed with the impact Musashi products have had on our playing group. Both the range and quality of the supplements available reflects an organisation catering for athletes at the highest level.

In addition to taking advantage of the range of protein bars and powders as part of our recovery protocol from weight training and skills sessions, we have seen enormous benefit from the inclusion of a range of pre-training supplements that prime the body in readiness for the rigours of high level, extended sessions out on the track and in the gym.

We have found the Musashi team to be extremely professional in their approach to dealing with our fitness and dietetic staff and also providing a terrific support network for all of our supplement queries and ideas.

We are looking forward to building an even stronger relationship with Musashi over the coming seasons, as we recognise the critical role they play in the preparation and recovery of our playing group.
